I have a web-based seaerchable archive of several digital and packet radio related mailing lists available at <http://www.febo.com/list-archive>

The archive currently includes the following mailing lists:

TAPR BBS-SIG Mailing List -- from May, 1994

TAPR FCC Mailing List -- from August, 1994

TAPR NET-SIG Mailing List -- from March, 1994

TAPR-BB (Announcements) Mailing List -- from August, 1994

NOS-BBS Mailing List -- from December 1993

UCSD TCP-Group Mailing List -- from October, 1993

It's searchable by keywords as well as well as by date or thread.

For the last several months, the archive didn't work reliably due to a bug (unknown to me at the time) in the indexing software. That's been fixed now, so searches should once again work properly (I hope...).

I'm hoping to add additional mailing lists to the collection; if you have (or know of) comprehensive archives of other packet or digital radio mailing lists, please let me know.

Enjoy!

-----

The PIC-E Evaluation has come to an end. The PIC-E development team has finalized the minor changes to the kit based on the eval input and we are scheduling the final version of the PIC-E to be shipping around the time of the Dayton HamVention (we plan to have units at Dayton as well).

The TAPR Office is now taking orders on this final version of the PIC-E kit.

Full details are on <http://www.tapr.org/tapr/html/Fpice.html>

The web page will be updated later this week detailing what minor changes to the final unit are being made.

You can get your name at the first of the list by ordering before Dayton.

Thanks to those that participated in the Evaluation process.

Cheers - Greg Jones, WD5IVD
